CALEB HOKE

Syracuse, UT | 951-609-6098 | Caleb.Hoke@hotmail.com

PROFESSIONAL SUMMARY

Technical professional with more than eight years of experience supporting healthcare technology, medical device connectivity, network implementation, and cybersecurity-focused assessment. Experienced in coordinating across clinical engineering, IT teams, manufacturers, and healthcare customers to improve device connectivity, data quality, and operational reliability. Brings hands-on troubleshooting experience and a foundation in software, networking, and database technologies, with an interest in applying these skills in cloud engineering, network engineering, or cybersecurity roles.

CORE TECHNICAL SKILLS

Cybersecurity Penetration testing; medical device cybersecurity; vulnerability assessment; regulatory compliance	**Infrastructure & Data** Network engineering; cloud engineering; database management; technical troubleshooting
Software & Web Java; JavaScript; C++; Python; HTML; CSS; TypeScript	**Delivery & Operations** Project coordination; technical documentation; data validation; customer and stakeholder support

PROFESSIONAL EXPERIENCE

Connected Device Onboarding Specialist II

Aug 2021 – Aug 2026

TRIMEDX LLC | Indianapolis, IN

- Collaborated with Clinical Engineering, Information Technology, and original equipment manufacturers to support medical device data collection and connectivity initiatives.
- Led subsets of the team and supported cross-functional device implementation activities.
- Used technical audit data to help ensure medical equipment inventory accuracy and completeness.
- Performed medical equipment network vulnerability assessments and supported Red Team/Blue Team penetration-testing activities.
- Managed customer relationships with hospitals across the country.
- Configured medical networks for Philips and GE patient monitoring systems.
- Worked across a broad range of imaging and patient data management (PDM) equipment modalities.

Connected Device Onboarding Specialist I

May 2019 – Aug 2021

TRIMEDX LLC | Indianapolis, IN

- Served as a liaison between new hires and departments, supporting communication and team integration.
- Provided continued support to new hires following initial onboarding.
- Created reports and documentation to demonstrate completeness and accuracy of data collection efforts.
- Developed experience across healthcare technology management environments and imaging modalities.

Tech Plus One

May 2018 – May 2019

TRIMEDX LLC | Indianapolis, IN

- Performed preventive maintenance on medical equipment to support functionality and safety compliance.
- Diagnosed and repaired malfunctioning medical devices while minimizing downtime and following manufacturer specifications.
- Calibrated and tested medical equipment to support accurate, reliable performance.
- Maintained maintenance, repair, calibration, work-order, and service records.
- Provided technical support and equipment-use training to healthcare staff.
- Assisted with medical equipment inventory, asset tracking, and parts ordering.
- Collaborated with biomedical technicians, clinical staff, and management to support healthcare facility operations.

EDUCATION

Associate in Science (A.S.), Biomedical Engineering | Vincennes University, Vincennes, IN | May 2018
